REPORT OF THE

## Superintendent of Schools

---

To the School Committee:

### FINANCES

We spent \$12,106.82 during the past financial year to continue the education of 97 pupils including those at Smith School. The town has received reimbursements from the Commonwealth of Massachusetts and from Northampton amounting to \$7,684.87, which leaves a net cost to our taxpayers of \$4,421.95. We continue to pay less from local taxation for the education of each boy and girl than most towns in the state. Yet with the aid of the additional money from the state we have to spend more per pupil for education than the average town since we have a high cost per pupil for transportation. This seems unavoidable for geographical reasons. Our cost for education outside of transportation continues to be lower in Westhampton than in the average town in the Commonwealth. I have listed below in Column I our average expenditures for the ten-year period 1929-1939, with our expenses for 1940 summarized in Column II according to the bookkeeping system approved by the State Department of Education, and our expenses for 1941 in Column III classified in the same manner. Our budget for the coming year appears in column IV. You will observe that we are asking for \$12,370 for the support of schools for the coming year in place of \$12,600 which we asked for a year ago. Of course, if this is voted at town meeting, reimbursements from the state will reduce the net cost to the taxpayer by the end of the year as in 1941. It is impossible to estimate exactly the amount of money needed

for fuel since the cost per gallon may increase. Costs for tuition and transportation may be increased slightly over our estimate if additional families with school children move into the town. We will need more money for teachers' salaries in all probability. Books and supplies have increased in price from ten to fifty per cent on certain items.

## STAFF

Miss Constance McKowen resigned at the close of our school year to return to Teachers College to complete her requirements for a degree. She was replaced by Mr. James Miller, a graduate of Fitchburg Teachers College and a teacher of three years' experience. Miss Rachel Bridgman attended summer school at Columbia University. We now have an excellent staff of teachers, but, if we plan to keep them, we must consider these facts. The salaries of teachers have been increased from ten to twenty-five percent in some places, with an average county-wide increase of fifteen per cent, in order to retain teachers so that they would not accept work in defense plants or move to better paid positions. The National Commission for the Defense of Democracy Through Education finds that the United States faces a serious shortage of qualified teachers which threatens to undermine the standards of the nation. Between 40,000 and 50,000 qualified teachers will be needed to replace those who have left the teaching profession. They insist that enough vacancies will result in the next year to absorb every qualified teacher in the country; adding that this is the biggest teaching boom since the first World War. With the governor of our state asking for an increase for state and county employees of 10%, with the cost of living increasing more than 10%, and with increasing taxes for the support of the war, the salaries of our staff members should be increased not later than September.

## REPAIRS

Our schoolhouse and playground are in better condition than they were a year ago since the exterior of the school has been painted, the first part of the roof reshingled, and additional work done on the playground.

The state building inspector informed us last year that we should provide a supply of fresh air to each classroom equal to thirty cubic feet of air per minute per

pupil and the removal of a similar amount through the foul air ducts. He also recommended that the recirculating opening, located in the corridor adjacent to the boys' toilet, be hanged to another location to insure an uncontaminated supply of fresh air.

### ATTENDANCE

The attendance figures for the school year ending in June, 1941, are as follows:

	Whole No. Enrolled	Average Membership	Average Attendance
Center School			
Constance McKowen 6, 7, 8	26	24.58	22.64
Elizabeth Hayden 3, 4, 5	25	23.35	21.93
Rachel Bridgman 1, 2	15	14.03	12.74
Totals	66	61.96	57.31

### Individual Differences and Tests

We have emphasized again this year the teaching of the whole child, providing insofar as circumstances permit material for growth depending upon the differences of our pupils. To assist us in this program each child has had three additional standardized measurements of ability and achievement since my last report. We, therefore, have more objective and reliable measures of individual differences and accomplishment than a year ago.

That students do differ in ability and achievement is not to be questioned. It is well known that students in the same grade in the same school vary greatly in any of the abilities measured by school tests. Nor is there any question that these individual differences are important in dealing with growing boys and girls. For example, if Student X while in the seventh grade is able to write

more correctly than the average senior in high school, that fact should be known and considered by his teacher of English in adapting his instruction to his ability and needs. If Student Y has developed a high degree of interest and unusual ability in the field of mathematics but does not show any aptitude for English or other languages, that fact should be known and carefully considered in helping him select his future course in high school and in planning his entire life. Educational guidance either in the sense of long term planning or of immediate adaptation of instructive material cannot possibly be effected unless such individual differences can be identified and their relation established. Parents are cordially invited to visit the classroom or teachers at any time to see the results of these objective measures of accomplishment of their boys and girls, and to plan with the teachers for the necessary educational and vocational guidance.

New report cards, similar to those used in our training schools at our state teachers college, were introduced this year. They emphasize growth of pupils in citizenship as well as Academic learning. They provide space for teachers to write in more detail any kind of need or accomplishment of the individual child. These will not be used more than one year if the majority of the parents prefer to have us use the older type of report card. Parents will be given an opportunity to vote on this matter late in the spring.

### SUPERVISION

Supervision today means "the improvement of instruction." Frequent staff meetings, an adequate supply of modern textbooks, better schoolrooms with better equipment, teacher plan books, stimulation for professional growth, a supply of professional literature and greater teacher participation in the organization of the school and the curriculum—these do improve instruction and are more important than classroom visitation alone. Our present program combines them all—and our success or failure should be measured by the school we keep.

## EDUCATION FOR DEMOCRACY.

Never before have schools faced a greater problem in education than we do this year. While all of us make sacrifices for the National Defense, we must not forget our boys and girls.

Calvin Coolidge said in 1920, "The chief defenses of democracy are not material; they are mental and spiritual. At the very foundation of the structure our democracy must be a sound system of public education."

The Educational Policies Commission reports: "In the schools as elsewhere, democracy is no easy path. It is a hard road and one which some members of the group may wish to reject in favor of the smooth, straight tunnel of autocracy where no man has worth in himself, where education is a process of learning to obey orders automatically, and where motivation is a simple matter of dodging a club and moving in the direction indicated by a whip-lash. The man who scorns to enter that tunnel, the man who is not easily frightened by difficult and dangerous jobs, has his way clear before him. He must feel with and for all his fellows, try to understand them, work to inform and inspire them, and seek to be informed and inspired by them.

"The problem of making the democratic spirit prevail in these dark days of hostility and uncertainty falls chiefly to education. The reformer may cry that it is a social problem, the financier may hold that it is an economic problem, the politician may claim that it is a problem of statecraft, and the escapist may fold his hands and murmur resignedly that it is a problem which can be solved only by the inexorable march of destiny. But the basic problem, underneath its social, economic, political masks is forever and always, simply and completely, the problem of modifying human behavior by the method of education. A would-be democracy which fails in time to grasp this principle and to act upon it intelligently and decisively is doomed. Its back is against the wall, the

bandage of self-imposed ignorance is over its eyes, and the fingers of invited autocracy are tightened on the fingers of the firing squad.”

### CONCLUSION

In closing, I assure the committee that our teachers are doing excellent work, and that our schools are maintaining satisfactory standards of work.

I want to thank the members of the committee, the teachers, parents, and pupils for their cooperation in our common task. By working together we have made some improvements in our educational offering. If we cooperate with the same spirit, our boys and girls will have a still better education next year.

Respectfully submitted,

CHARLES A. MITCHELL

Superintendent of Schools

December 31, 1941

REPORT OF THE  
**School Nurse**

---

Mr. Charles A. Mitchell

Superintendent of Schools

Easthampton, Massachusetts,

For the School of Westhampton, Massachusetts, I  
present the following report for 1941:

The Winter and Spring terms were uneventful with  
very few cases of illness and those only minor.

In January Dr. Manwell gave the T. B. Test to 12  
pupils and three teachers. All were negative.

Four nutrition classes completed the course begun in  
the fall.

Routine weighing and measuring were done in Febru-  
ary and June.

The audiometer test was given in April to 61 pupils.  
No case of defective hearing were found.

The Dental Clinic was held in May. The report  
follows:

Children treated at the clinic	25
Total operations	118
Permanent fillings	66
Permanent extractions	1
Cleaning	24
Temporary fillings	22
Temporary extractions	5
Amount collected from pupils	\$48.50
Amount contributed by Hobby Club	22.00
Children receiving certificates	22
Children treated by family dentist	12

As is her custom, Dr. Manwell did the spring check-  
up, including children entering school since the fall Physi-  
cal Examinations. 14 children were examined then.

September 3 and 5, 1940. Annual Physical Examination.

Children examined	55
-------------------	----

A summary of defects follows: (this does not include dental defects)

Posture defects	12
Skin	2
Eye defects    corrected by glasses	2
Nose and throat	17
Slightly enlarged glands	28
Heart defects (slight)	2
Lungs	0
Speech defects	2
Nutritional defects	5

Eye examinations were conducted in September and October.

In November Dr. Manwell examined 12 children not present in September. This month also marked the outbreak of chicken-pox and whooping cough appeared in the early part of December.

During the year 25 home visits were made.

This coming September will complete my eighth year as School Nurse. Looking over those years I can see many causes for encouragement. The co-operation and interest in the health of the Pre-School and School Child has increased to a very remarkable degree. The interest and co-operation of the parents in the Diphtheria and vaccination Clinic is most heart-warming. In the school at the present time there are only 4 children who have not been immunized against diphtheria, representing only two families. In the report of the South Connecticut Valley District, Westhampton stands highest in the percentage of immunized children. Its total percentage is 49 per cent of the total population.

In war time epidemics are always imminent. Diphtheria is one disease no child needs to have. Failure to protect our children from this disease is something we may regret. If your child has not been immunized do

take advantage of this public service, provided by the Board of Health.

I am truly gratified for the co-operation of the School Board, the Board of Health, the teachers, the parents, and the Superintendent of School.

MABEL C. BRIDGMAN,  
School Nurse.

---

### WELL CHILD CONFERENCE

The Well Child Conference was held in the Church Parlors June 23 and 24, 1941. The Staff consisted of the following:

Dr. Claire Manwell, Medical and Dental Examiner.

Miss Margarett Pettee, Consultant in Nutrition

Miss Mary Lewis, Registrar

Local committee:

Mrs. Mabel C. Bridgman

Mrs. Marion Hathaway

Mrs. Raymond Blakesley

Mrs. Louise Parsons

Miss Rachel Bridgman

Thirty-six children and their parents attended the conference, classified as follows:

Old cases (Attending conference previous years) 21

New cases 15

of these cases 4 were infants

28 pre-school

4 entering school

6 needed medical care

17 needed dental care

18 needed Toxoids of Diptheria Immunization

18 needed vaccination

At the clinic for vaccination and immunization held June 27, July 25

15 children received toxoids

16 children received vaccination

4 children who did not receive toxoids at clinic are receiving them

We commend to the Mother's Club again the Well Child Conference. Health is so important and especially in war time. Prevention of disease is more important now than ever. Let us set ourselves a goal for 1942.

1. Good Nutrition: For every child in Westhampton. This includes liberal use of the basic foods, such as: eggs, at least four a week  
milk, 1 quart daily for children  
vegetables daily, raw whenever possible  
fresh fruit daily  
whole grain cereals and dark bread daily  
meat four times a week  
fish one a week
2. Dental care for every child in Westhampton. Take your child to a dentist when he has 20 teeth. He will get acquainted with the dentist and probably the dentist will need to do very little the first visit. This will help the child to lose all fear of the dentist, and look upon him as a friend. Regular dental care is not expensive. The dental clinic is ready to help all mothers who need it.
3. Annual Medical Examination for every child in Westhampton. This can be done with no expenditure of money, first in the Well Child Conference and later in the School.
4. Vaccination against Small Pox and immunization against Diphtheria for all children as soon as possible after 6 months. This also is a free service provided by the taxpayers through the Board of Health.

I am greatly indebted to the local committee for their help and support. I know that two days given from a busy week mean a great deal. We are all indebted to our professional staff, Dr. Manwell, Miss Lewis, and to the Extension Service for loaning Miss Pettee to us.

MABEL CRAIG BRIDGMAN, R. N.

# Articles of the Town Warrant

---

TOWN MEETING, MARCH 2, 1942

Ten A. M.—Prompt

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To choose a Town Clerk.

Article 3. To hear and act on all reports presented at said meeting.

Article 4. To choose all necessary officers to serve the ensuing year.

Article 5. To see if the Town will vote to leave the care of highways in charge of the Selectmen.

Article 6. To see if the Town will vote to authorize its Board of Selectmen to appoint one of its members to act as Superintendent of Streets, and fix the salary to comply with Section 4A Chapter 41, General Laws.

Article 7. To vote in compliance with Section 108, Chapter 41, General Laws, which requires that salaries of elected officers be fixed by vote of the Town.

Article 8. To raise and appropriate such sums of money as may be necessary to defray Town charges the ensuing year.

Article 9. To see if the Town will raise and appropriate a sum of money for the observance of Memorial Day.

Article 10. To take action in regard to the collection of taxes.

Article 11. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen,

to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1942, and to issue a note or notes therefore, payable within one year, and to renew any note or notes as may be given for a period less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 12. To see if the Town will raise and appropriate a sum of money for Work Relief.

Article 13. To see if the Town will raise and appropriate a sum of money for the purchase of a truck.

Article 14. To see if the Town will raise and appropriate a sum of money for the purchase of fire equipment.

Article 15. To see if the Town will raise and appropriate from available funds a sum of money for use by the assessors in fixing the tax rate of the current year or to take any action relative thereto.

Article 16. To see if the Town will raise and appropriate a sum of money for Civilian Defense.

(Other articles may appear in the posted warrant.)
